Art Unit: 1714

The amendment received March 31, 2004 has been made of record. Claims 1-3 and 5-8 are pending.

Claims 1-3 and 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP '616 in view of EP '093, Hornbaker et al and Noonan et al.

This rejection is maintained for reasons of record and with the additional reference to Noonan et al showing that tetrabromobisphenol A was notoriously well known in the art of brominated flame retardants.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
